

SOORAJ J SATHYAJITH

HIGH SCHOOL STUDENT (IB DIPLOMA TRACK) | 2023-2027

CONTACT INFO

- +971-487-9788
- soorajjsathyajith@gmail.com
- Portland, OR
- sjsuju

SKILLS

- CAD
- Onshape
- Fusion 360
- Robot design
- Arduino/C++
- Java
- Python
- Flask
- React JS
- Data analysis
- Machine learning
- Bullet Physics

LANGUAGES

- English (Fluent)
- Saurashtra (Fluent)
- French (working proficiency)

PRESENTATIONS

- PSU for a FirstFare Conference** - Provided presentation and workshop in CAD, 2024 and 2025
- Oregon Afterschool conference**- Presented on program design and management for afterschool settings.
- Ambassador to Oregon Robotics and Tournament Outreach**- Represented ORTOP to sponsors Daimler, and Hyster to promote STEM and raise funds.
- Oregon International Airshow**: Invited in 2024, 2025, and 2026 to showcase and present about STEM robotics to thousands of middle schoolers over multiple days.

EDUCATION

- Sunset High School, IB Diploma track
- GPA: 3.91 Unweighted
- Expected Grad: June 2027

PROFILE

Engineering-focused IB student with experience leading robotics teams, building AI/ML projects, and developing biomedical engineering prototypes. Founded and led FTC Team 23918 to represent Oregon at the FTC World Championship, while expanding STEM access through nonprofit outreach, mentoring, and technical presentations.

EXPERIENCE

Key Accomplishments

- Captain of Oregon's top robotics team for the 2025-2026 season
- Represented Oregon at the FTC World Robotics Championship, Houston, May 2026
- Founded Curious Neurons Foundation, a 501(c)(3) nonprofit enabling rural and underserved youth in STEM and robotics, raising over 10,000 since 2024
- Built strategic, long-term statewide partnerships to promote robotics in Oregon
- Placed at HOSA SLC for biomedical innovation (March 2026); representing school at the HOSA International Leadership Conference (June 2026)
- Volunteered 400+ hours for Oregon's Robotics Tournament and Outreach program since 2023
- Founded and operated a resale business with over \$25,000 in gross sales, managing pricing, inventory, logistics, and customer communication.

Robotics Experience (Jan 2023-Present)

- Founded, led, and managed a high performing team of 13 members
- Personally coached and mentored 40 students in robotics over last 3 years
- Helped expand Oregon youth robotics by mentoring teams, supporting events, and building partnerships with schools and sponsors.
- Started 5 FTC/FLL robotics teams
- 2x Inspire Award Winner & Oregon #1 Advancement 2025-2026 Season
- Highly experienced in machining, designing, and CAD (Onshape/Autodesk Fusion360)
- Highly proficient Python & Java through Android Studio
- Designed, prototyped, and iterated robot mechanisms using CAD, machining, and rapid testing cycles
- Experience in Bullet Physics Engine

Internships/Projects/Employment

- CORE Defender AI Internship (Jan 2025-Present)**: Built and trained AI models for healthcare-focused tasks, gaining experience in model development, data preparation, and applied machine learning workflows.
- Personal Project (Dec 2025-Present)**: Developing a low-cost EMG-controlled prosthetic hand using Arduino/ESP32, servo actuation, 3D-printed components, and machine-learning classification models for grip control & improved dexterity.
- VibeShuffle - A Custom Spotify Application (April 2025-Present)**: Building a full-stack web app using Flask and the Spotify API to filter and shuffle songs by mood, genre, and user listening preferences.
- Chick-Fil-A (Jun 2025-Mar 2026)**: Kitchen Team member and Cook. Working with a diverse team to quickly/efficiently serve quality food and customer service.

Volunteering

- Kaiser Permanente (June 2025-Present)**: Volunteering with Kaiser at their Beaverton urgent care location to provide high quality customer care/service.
- FIRST volunteer (2022-Present)**: Volunteered with the global robotics nonprofit FIRST to help run/host tournaments. Presented on behalf of FIRST to its sponsors Daimler Truck NA and Hyster-Yale.
